This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

MILNE'S
TABLES OF EXCHANG

TABLES OF EXCHANGE

FOR THE CONVERSION OF

STERLING MONEY INTO INDIAN AND CEYLON CURRENCY,

AND

INDIAN AND CEYLON CURRENCY INTO STERLING MONEY,

AT RATES FROM 1s. 8d. TO 2s. 3d. PER RUPEE,

CALCULATED FOR EVERY SIXTEENTH OF A PENNY,

TO WHICH IS ADDED

TABLES FOR CALCULATING EXCHANGES

BETWEEN

LONDON AND AUSTRALIA, NEW ZEALAND,

THE CAPE OF GOOD HOPE, WEST INDIES, CANADA, &c.,

Which will also be found applicable to all Exchange operations between Countries whose Currencies are of the same denomination, such as America and Japan, or China, the Straits Settlements and China, or Manila, &c.

BY

JAMES MILNE, ACCOUNTANT.

SECOND EDITION.

BIBLIOTHECA BRITANNICA

London:

HENRY S. KING & CO., 65, CORNHILL, E.C.

1875.

181. e. 39.

FREDC. C. MATHIESON,

PRINTER,

BARTHOLOMEW HOUSE, BARTHOLOMEW LANE, BANK, E.C.

(All rights reserved.)

PREFACE.

THE AUTHOR, in introducing to public notice an enlarged edition of the Tables of Exchange formerly published by him, would take the opportunity of returning thanks for the confidence placed in his work, and he now begs to submit the result of further labors, which he hopes will be found equally useful to the mercantile community.

The Tables for Rupee conversion now progress by $\frac{1}{16}$th of a Rupee from 1s. 8d., and are framed in order to suit both the new Ceylon currency of Rupees and Cents, and the existing Indian currency of Rupees, Annas, and Pies. In the section for the conversion of Sterling into Rupees a column will be found giving the value of the decimal in Indian currency (or Annas and Pies), an example of which follows.

To find the value of £21 10s. 6d. in Rupees and Cents, at 1s. 9$\frac{1}{16}$d., refer to the Table for that rate, and against these figures will be found this result:

£20	=	Rs. 227·89
1	=	11·39
10s.	=	5·69
6d.	=	·28
		Rs. 245·25

Or, if the conversion is required into Rupees, Annas, and Pies, take the equivalent number of Rupees, and in the separate column will be found the decimal value, thus:

£20	=	Rs. 227·14·3
1	=	11· 6·2
10s.	=	5·11·0
6d.	=	4·6
		Rs. 245·3·11

The decimal ·25 being equal to the fourth part of a Rupee, the two results are equal, or nearly, 4 Annas being the exact equivalent.

In the Section (No. 2) for the conversion of Rupees into Sterling the value of Cents in Indian currency is set opposite each figure, so that in finding the result at a certain rate of exchange of the Annas and Pies the following process is adopted:

To find the equivalent of Rs. 200·89 at 1s. $9\frac{1}{16}$d.

Rs. 200	=	£17	11	$0\frac{1}{2}$
·75	=	0	1	$3\frac{3}{4}$
·14	=	0	0	$2\frac{3}{4}$
		£17	12	7

Or to find the equivalent of Rs. 200·14·3.

		Rs. 200	=	£17	11	$0\frac{1}{2}$
Cents 75	=	12	=	0	1	$3\frac{3}{4}$
14	=	2·3	=	0	0	$2\frac{3}{4}$
		200·14·3		£17	12	7

This gives the amount within one Pie, and any number of Annas and Pies can be made up, or nearly so, in a similar manner.

The Table does not admit of the Pies and Annas from *one* upwards being valued, but this will not be found to be any drawback in the practical use of the book, although for the purpose of exact calculation Tables are appended showing the value of Annas and Pies in Cents from one upwards, and the reverse, viz., Cents in Annas and Pies.

An entirely new set of Tables is added in a separate section to facilitate the calculation of exchange between one Presidency town in India and another; and also in their operations with Ceylon, and *vice versâ*, where the quotation is given at so much per cent. discount or premium. The result is set down in the coin and decimal only, but the decimal can always be valued by the separate Tables already referred to, Nos. 3 and 4 in the Appendix. The Table as it stands is also available for exchange calculations in operations between Japan and Hong Kong, Hong Kong and Singapore, or between these points and America, or *vice versâ*, and between other places possessing the same denomination of coin as currency, including internal operations in America, where the exchange is quoted at so much discount or premium. This Table will also be found adapted for exchanges between London and Australia, New Zealand, the Cape of Good Hope, and certain parts of the

West Indies, where the quotation is always so much discount or premium; and the result, in shillings and pence, is arrived at by simply valuing the decimal by Tables also in the Appendix. The following examples will further explain.

For drawing from India on Ceylon at $4\frac{3}{4}$ % discount a bill for Rs. 650·75 would give

Rs. 600	=	Rs. 629·92
50	=	52·49
·70	=	·73
·05	=	·05
Rs. 650·75	=	Rs. 683·19

And a bill from one Presidency town on another for Rs. 650·12·8 yields

	Rs. 600	=	Rs. 629·92
	50	=	52·49
By Table 1 App.	75 cents = 12	=	·78
	4 „ = 8	=	·04
			683·23 cents, or 3·8.

Or Rs. 683·3·8.

The operations between America and Japan, and Hong Kong or Singapore, or other points where the Dollar and Cent form the currency are, of course, the results given in the Table, and do not require exemplification; but as an example of its adaptation to exchanges between this country and Australia, &c., the following may be found useful. A draft is required in London or Melbourne, or *vice versâ*, for £750 15s. 9d., exchange being 2 % premium, to find the cost of it.

		£700	=	£686·27
		50	=	49·01
Cents 50	=	10s.	=	·49
20	=	5s.	=	·19
5				·04
4	=	9d.	=	·03
				£736·03

Or, with the decimal valued in shillings and pence, the result as above

is £736 0s. 7d. Again, by the same Table the exchange Mauritius on London, or *vice versâ*, can be arrived at. Quotations in this are given at 4s. per dollar, and so much per cent. discount or premium.

I require to place $5,000 at Port Louis, and the rate is quoted 4s. per dollar, and $4\frac{3}{4}$ % premium; the cost would therefore be

$$\$5{,}000 \text{ @ } 4\text{s.} = £1{,}000, \text{ which at}$$
$$4\tfrac{3}{4}\,\%\text{ pm.} = £954{\cdot}65, \text{ or}$$

£954 13s., as the cost of the draft.

By a reverse calculation Mauritius on London is arrived at, thus £1,000 draft on London at 4s. and $4\frac{3}{4}$ % pm.

$$£1{,}000 \text{ @ } 4\text{s.} = \$5{,}000 \text{ @ } 4\tfrac{3}{4} = \$4{,}773{\cdot}26,$$

which is the cost of the draft on London.

SECTION I.

STERLING INTO RUPEES AND CENTS.

SECTION III.

EXPLANATION.

The following Tables are intended for the calculation of Exchange between one point and another where the currencies are of the same denomination as between

1st. England and Australia.

2nd. England and New Zealand.

3rd. England and the Cape of Good Hope.

4th. England and West Indies.

5th. England and Canada and other North American possessions where the currency is sterling.

Note.—The valuation of the decimal parts in shillings and pence is arrived at by reference to Miscellaneous Table No. 1.

6th. Between various points where the Dollar is currency, such as

Japan and China.

China and Singapore.

China and Manila.

The United States and Canada or Mexico.

Various points in the United States—one town upon another.

Chili and Peru, or other countries in South America where the dollar is currency.

7th. Between places where the Rupee is currency, such as

The Presidency Towns of India in exchange operations with each other; and

The Presidency Towns in dealings with Ceylon.

Note.—To the above may soon be added operations between India and Mauritius, where there is every prospect of the Rupee being fixed as the current coin of the island, thus putting an end to the present sad confusion of money in that important dependency.

This Section of the Tables is divided into two Parts:

Part I. commencing with currency at 12 % discount, and progressing at various rates to $\frac{1}{64}$ % discount.

Part II. beginning with currency at $\frac{1}{16}$ premium, and descending to 12 % premium.

The following are examples in using the Tables:

The rate of exchange London on Melbourne being 2 % dis., £100 will equal in a bill on that place £102·04, or referring to Table I. Miscellaneous, for the value of the decimal, £102 0s. 9d.

In the same way the rate being 2 % premium, £100 will only yield £98·08, or £98 1s. 7d.

Between points where the Dollar is currency the decimal only is used, but between Ceylon and India, where the subsidiary coin is expressed in Annas and Pies, the value of the decimal will be found in Table III. Miscellaneous.

SECTION III.

PART II.

PART II.

The following Tables will be useful in calculations where Exchange is at a Premium, and are so arranged that the product opposite the unit represents the result in hundreds of thousands. To find the figures for tens of thousands, thousands, hundreds, tens, units, or the decimal, point off one figure nearer the left-hand side, thus :—

200,000	at 7 % Prem.	=	186,915·88
20,000	„	=	18,691·58
2,000	„	=	1,869·15
200	„	=	186·91
20	„	=	18·69
2	„	=	1·86
02	„	=	·18

The valuation of the decimal in sterling, or in annas or pies, will be found in the Miscellaneous Tables.

	$\frac{1}{16}$ %.	$\frac{1}{8}$ %.	$\frac{3}{16}$ %.	$\frac{1}{4}$ %.	$\frac{5}{16}$ %.

TABLE V.

STERLING INTO RUPEES.

The amount in each column is what would be added to the equivalent of hundreds of thousands of pounds in converting Sterling into Rupees; and to find the result downwards to the unit, point off one figure nearer the left for each nought struck off. Thus £100,000 @ 1-64th = Rs. 651·04: £10,000 = Rs. 65·10: £1,000 = Rs. 6·51: £100 = Rs. 0·65: £10 = Rs. 0·06: £1 = Rs. 0·00·6. Decimal value will be found by referring to Table III. Appendix.

	$\frac{1}{64}$d. per Rupee.	$\frac{1}{32}$d. per Rupee.	$\frac{1}{16}$d. per Rupee.	$\frac{1}{8}$d. per Rupee.	$\frac{1}{4}$d. per Rupee.	$\frac{1}{2}$d. per Rupee.	$\frac{3}{4}$d. per Rupee.	1d. per Rupee.
£100,000	Rs. 651·04	1,302·08	2,604·16	5,208·33	10,416·66	20,833·33	31,250·00	41,666·66

TABLE VI.

RUPEES INTO STERLING.

The amount in each column is what would be added to the equivalent of hundreds of thousands of Rupees in converting Rupees into Sterling, and the result for sums downwards will be found in the same way as by the illustration to Table V. Decimal value will be found on referring to Table I. Appendix.

	$\frac{1}{64}$d. per Rupee.	$\frac{1}{32}$d. per Rupee.	$\frac{1}{16}$d. per Rupee.	$\frac{1}{8}$d. per Rupee.	$\frac{1}{4}$d. per Rupee.	$\frac{1}{2}$d. per Rupee.	$\frac{3}{4}$d. per Rupee.	1d. per Rupee.
